

YOU can make a **BIG** difference for our high school robotics team: **FRC Team #5479, Cafe Bot!**

What is FIRST? What is FRC?

FIRST stands for "For Inspiration and Recognition of Science and Technology." The mission of FIRST is to inspire young people to be science and technology leaders by engaging them in exciting mentor-based programs that build science, engineering and technology skills, that inspire innovation, and that foster well-rounded life capabilities including self-confidence, communication and leadership.

FRC stands for FIRST Robotics Competition. In FRC, high school students are tasked with designing, building, and programming a complex robot that must complete an ever-changing series of tasks. FRC teams have only six weeks (starting the first Saturday in January every year) to complete their robots. A new challenge is announced each year. This year the challenge is called "Recycle Rush," where robots stack crates and pick up "trash" (pool noodles).

What is Cafe Bot?

Cafe Bot is FRC team #5479. Cafe Bot was originally founded as a FIRST Tech Challenge team back in 2011, and this is our rookie season in FRC, which is the highest level in the FIRST progression of programs. During our three years in FTC, our team received over twenty different awards and accolades, culminating in the 2014 FIRST World Championship Inspire Award (3rd place), which is the absolute highest award possible in the FTC program. Shortly thereafter, we founded a new FIRST Robotics Competition team of the same name. Our team is known for our Gracious Professionalism and community outreach, as well as our robust, high-performance robots and high standards of industrial design. This year, we are bringing a new international exchange program to the FRC World Championship!

Please consider sponsoring our team!

Team Cafe Bot needs your help: it costs a lot to run a robot team, buy parts and register for events! Our rookie season is costly as we are setting up our new shop. Help us to be the very best we can be in our rookie FRC season! We are a private team, not associated with any particular school district or organization, so your help is greatly needed and appreciated. For more details on how to sponsor our team and what our team will do for you, please visit the sponsor page of our team website:

www.cafebot.org

LEVEL

DONATION VALUE

BENEFIT

milk & cookies

\$250 +

Your company name and logo will be recognized on the team website list of sponsors, along with a link to your website. You will also receive a supply of team magnets and buttons for showing your support of the team!

the "Cappuccino"

\$500 +

In addition to Espresso level benefits, your company name will also appear on team t-shirts and on the banner displayed at tournaments, robot demos, and public events. You will also be presented with a Cappy plush mascot for your support!

Joe's Special Blend

\$1000 +

In addition to Espresso and Cappuccino level benefits, your company name will be on the robot itself! Because the robot will be used in future years as a demo for public events, this level affords you the most enduring recognition for your support of FRC and Cafe Bot in particular!

Please make checks payable to "FIRST," write a notation in the memo section "support for FRC team #5479" and mail to:

FIRST Finance, 200 Bedford Street, Manchester, NH 03101 -OR-

call 1-800-871-8326 ext. 563 and charge your donation to Mastercard, VISA or American Express!

If you would like to meet the Cafe Bot team, receive a robot demonstration, and/or view a Power Point presentation on FRC and Cafe Bot prior to or after sponsoring, please contact Coach Kim Sanders at (314) 761-6016 or at kim@cafebot.net! THANK YOU FOR YOUR SUPPORT!! GO CAFE BOT!!
